DETAILED ACTION

This action is in response to Amendment filed August 6, 2004. All applicant's arguments have been considered.

Response to Arguments

Applicant's arguments, see Amendment, filed August 6, 2004, with respect to claims 1-8 have been fully considered and are persuasive. The rejection of claims 1-8 has been withdrawn.

Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 6-8, the prior art of record fails to teach or suggest the use of a microscope slide stage having an abutment surface that is undercut and a spring element wherein the abutment surface contacts the specimen slide below the upper edge of the specimen slide and higher than the point of contact of the spring element with the specimen slide.

The remaining claims depend from claim 1 and are allowable for the same reasons.
